PROFILE

SEO, GEO & AEO specialist helping SaaS and tech businesses improve their online visibility by combining traditional search engine optimization with modern AI search optimization strategies. Focused on optimizing websites and content to perform in both Google Search and AI-powered platforms and answer engines. Experienced in keyword research, on-page and technical SEO, content strategy, website audits, schema markup, search intent optimization, internal linking, and performance analysis — applying Generative Engine Optimization (GEO) and Answer Engine Optimization (AEO) techniques to make content easier for AI systems and search engines to understand and surface. Committed to delivering high-quality, data-driven work with clear communication and measurable client results.

SELECTED CLIENT RESULTS

EXPERIENCE

- SEO, GEO & AEO ConsultantOngoingSelf-Employed — Independent Consulting Practice
- Deliver on-page SEO, off-page SEO, content creation, and link building services to SaaS and tech startup clients.
 - Ran a technical SEO audit and content strategy overhaul that grew a client's monthly clicks from 58 to 47,600 (820x) and impressions to 2.56M in six months, improving average position from 13.8 to 5.7.
 - Rebuilt a local SEO and Google Business Profile presence for a UK clinic, growing monthly call volume from 3 to 289 (96x).
 - Applied Generative Engine Optimization (GEO) techniques to secure 10,500+ AI citations across engines such as Microsoft Copilot, with 18 pages recognized as trusted references.
 - Strengthened E-E-A-T signals and restructured content for clarity, winning the #1 Google AI Overview placement for a medical content client.
 - Delivered a 30-day rapid growth sprint that increased organic traffic 46.1% (807 to 1,179 sessions) with 20+ AI visibility points across ChatGPT, Google AI Overview, AI Mode, and Gemini.
 - Run end-to-end client acquisition: prospecting, cold outreach, proposals, and reporting.

- Advertising Visuals & BrandingOngoingSalaam Cola — Beverage Brand
- Produced advertising visuals for Salaam Cola's full product range (330ml can, glass bottle, 500ml, 1L, 1.5L, 2.15L) supporting the brand's "More than a drink, it's a moment" campaign.
 - Built a standalone Python content agent using the Anthropic API to auto-generate daily branded posts and graphics.

CASE STUDIES

- Technical SEO & Content Strategy — From Invisible to 47,600 Monthly ClicksFull technical SEO audit paired with a search-intent content strategy took monthly clicks from 58 to 47.6K in six months.
- Local SEO & Google Business Profile — 3 Calls a Month to 289Optimized local search presence around real patient search behavior, growing monthly calls 96x.
- AEO & AI Search Visibility — 10,500+ AI CitationsOptimized content specifically for LLMs, becoming a cited source across AI engines including Microsoft Copilot.
- E-E-A-T & Google AI Overview — Winning the AI Overview SpotStrengthened E-E-A-T signals and restructured content, securing the primary recommended source position.
